### WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

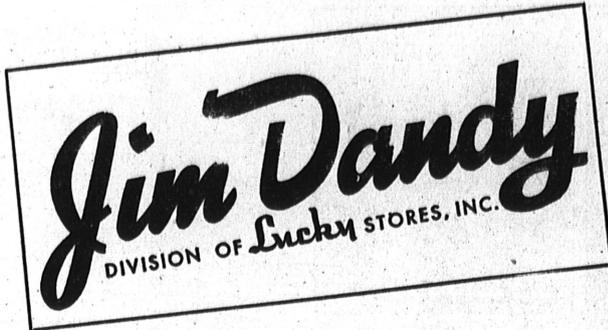

Guarding the safety of you and your family is a big part of any telephone man's job. That's why we each take a course in "defensive driving." It teaches us ways to avoid accidents—to anticipate what other drivers or pedestrians may do. It really works too. Our drivers cover millions of miles every year and chalk up one of the best safety records in the U.S. It pays off for us and our families, and for you too, for it helps make driving safer for everyone.

A reserve of power guards your phone service—day in and day out. Happily, storms and other emergencies don't come along often. But we keep ready anyway. Special standby generators run by gasoline or diesel engines have been provided in each telephone central office. If needed, they can take over to supply necessary power. This is one of the many ways we work to provide telephone service you can count on.

Next time you plan a family visit by telephone, make it a Conference Call. On a single telephone hook-up, family members in several different locations can chat back and forth. Everybody can hear and talk with everybody else. Your long distance operator will make all the arrangements for you. And she'll be glad to tell you the rates. Pacific Telephone.
